

Health & Safety Induction

Health & Safety Induction eLearning provides the first step to educate your employees on company specific policies and procedures.

Online Health & Safety training is the ideal way to induct new employees. Health & Safety Induction eLearning is a 25 minute course aimed at introducing new starters to Health & Safety procedures and policies. Employees become familiar with general, accident and first aid policy and are clearly instructed where to find more information if necessary. **This course has been Approved by RoSPA.**

Course Objectives

- Familiarity with Health & Safety procedures
- Identification of the causes of accidents and what can be done to prevent injury
- Understanding of the importance of being risk aware
- Responsibilities under current Health & Safety legislation

Benefits to your Organisation

- Immediately communicate safety policy to employees
- Mitigate potential liability in case of a safety related injury
- Clear audit trail - evidence completion and understanding
